

SANTA LUCÍA

CITY FOR SPORT

In Santa Lucia we are committed to sports as a way of human expression, as a tool for personal growth, for coexistence and tolerance: core values for any society that loves peace and progress. Values that are part of the essence of our town.

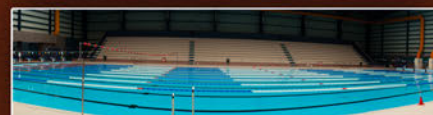

The sports facilities outlined here are authentic nurseries for local athletes in many different disciplines, and at the same time they are a reference for high level competitions and stages for national teams and international clubs, in which we are proud to announce the accumulation of great experience.

The qualities offered by our sport facilities are an important element for the promotion of this balanced and sustainable city we are building. To this we have the efficiency and friendliness of our managers and sports operators, the hospitality of our people, and the best climate in Europe
